

CHANGE.....

What's this funny thing called change
This thing that makes us feel so strange
When Life begins to re-arrange
And the Soul begins to re-engage

It's change that drives us and depends
On what the Soul does recommend
An What "Nature" did intend
So why is that so strange

Change can bring such happiness
Just when your life seems in a mess
To point you in your new direction
And tread the path of Life's intention

Change Direction, Have no fear
You're guided by your Angels here
Let them lead you, take you higher
To where your Soul can burn much brighter
Great things come along with change
It doesn't have to feel so strange
You're strength of Heart will pull you through
Affirming that you've been True to You

The wind has blown you to this place
It's just this thing called Fate your face
It's your time now, so set your pace
And make your mark in this Human Race
